

## OBJECTIVE

As a qualified Information Technology specializing with Communication Networks and Junior Software Developer, I am seeking for a position that will allow me to develop my knowledge and abilities further while supporting the company through the delivery of high quality work and fostering my growth.

## EXPERIENCE

### Walter Sisulu University

February - December

Tutor

I was Facilitating an overall Students Engagement activities in class with the module Communication Networks II.

### CapaCiTi

17 July 2023 - 17 January 2024

Software Developer

The CapaCiTi campus-based training programme combines unit standards from the National Certificate in Information Technology (Systems Development). The course is designed to provide you with the knowledge and skills to understand software development from basics to intermediate techniques. Practical applications include both front and back-end technologies, including modules in HTML, CSS, JavaScript, Python and Java.

### Younglings Africa

Jan 2024 - Present

Junior Software Developer

Younglings Voluntary Association is a Non-Profit Organization dedicated to creating an environment for young people who aspire to become Software Developers and are passionate about the craft; in fact, they are obsessed with it!
